FULL OF ENERGY

With confidence through the year 2023

We at European Cargo Logistics GmbH - like many others - have put a strenuous year 2022 behind us and are now looking ahead full of energy, drive and confidence.

There are already some current, interesting and exciting developments in our logistics services that we would like to inform you about in this issue of our newsletter. This includes, among other things, our capacity expansions for our shuttles to and from Milan and Verona. In addition, we report on extraordinary transports, turnover figures achieved and extended routes to the Baltic States. Last but not least, we point out general news and exciting upcoming events. We hope you enjoy reading.

INTERMODAL SERVICES

MILANO SHUTTLE 2.0: 100% CAPACITY INCREASE AND TERMINAL CHANGE

In 2023, more than ever: your perfect intermodal connection between Scandinavia and Italy is our *MILANO SHUTTLE 2.0*. The connection is an important part of our "One-Stop-Shop" network. A direct 24-hour shuttle service under the responsibility of ECL, serving the high demand for capacity and reliable intermodal transport between Scandinavia and Italy four times a week - in perfect harmony with our *VERONA SHUTTLE*. We have taken the next big step and implemented some positive changes.

On the one hand, the departures per week per direction were doubled from 2 to 4. In addition to this expansion of capacities, a terminal change has also taken place. Instead of MELZO, the destination terminal of the *MILANO SHUTTLE 2.0* is now SEGRATE. This improves the capacities of the connection, and increases the quality of the product even further.

The optimisations will also result in a new timetable for 2023. Due to the increased number of departures, we can now offer more flexible transports to and from the MAILAND region. In addition, numerous connecting services via the port of LÜBECK and the SEGRATE terminal to and from Northern and Southern Europe are possible.

We would be delighted to welcome you on board the *MILANO SHUTTLE* - the perfect connection between Northern Europe and Italy. You can find more information about the running times and timetables at <https://www.ecl-online.de/en/dienstleistungen/intermodale-verkehre/milano-shuttle-mailand.html> or feel free to contact us directly.

MILANO SHUTTLE 2.0
 lead time indication 🔍

- Lübeck - Segrate v.v. in approx. 24 hours
- Malmö/Trelleborg - Segrate v.v. in approx. 40 hours
- Oslo/Stockholm - Segrate v.v. in approx. 50 hours
- Helsinki/Kotka - Segrate v.v. in approx. 70 hours

VERONA SHUTTLE: 7 + 1 = 8 CAPACITY INCREASE BY 40%

Our *VERONA SHUTTLE* serves as another important Italy connection. Here, too, we can report a 40% increase in capacity. This results from an additional departure in both directions per week between the "Skandinavienkai" terminal in LÜBECK-TRAVEMÜNDE and the "Quadrante Europa" in VERONA as well as an expansion of the wagon capacity. This will make transports between Italy and Northern Europe even more flexible.

You can find more information on our website or feel free to contact us directly.

7 + 1 = 8 DEPARTURES

INTERMODAL SERVICES
VERONA SHUTTLE

- Lübeck - Verona in 24 hours v.v.
- 8 departures per week/direction
- Trailer repair service (Lübeck)
- 70 percent CO2 savings
- High punctuality rate > 90%

Ongoing connections to Scandinavia and the Baltic States

Ongoing connections to all of southern Italy

CO2 balance 2022
climate-positive

- ✓ 30.000 units
- ✓ 24.000.000 km road distance

=

- ✓ **22.800 tons CO2 saving**
- ✓ **68% less compared to equivalent road transports**

ECL
European Cargo Logistics

INTERMODAL CO2 BALANCE 2022: 22,800 TONS LESS CO2 EMISSIONS

In the area of intermodal transport, we were able to save greenhouse gas emissions of more than 22,800 tonnes of CO2 equivalents in 2022 with around 30,000 units over a road distance of approximately 24,000,000 km. This is about 68% less CO2 emissions compared to equivalent road transport. We are proud to make a significant contribution to a more sustainable and environmentally friendly (transport) world and would like to consistently continue on this path with you in 2023.

You can find more information at <https://www.ecl-online.de/en/dienstleistungen/intermodale-verkehre/green-logistics.html> or feel free to contact us directly.

GENERAL FORWARDING

SPECTACULAR: WAGON LOADING AT SEELANDKAI

"Special features" in everyday life are always exciting, even for experienced logistics experts like us. This category also includes the loading of 5 engine blocks, each weighing 89 tonnes, at Seelandkai last December. The blocks came directly from the manufacturer in TURKU, were picked up there by truck and brought to the port of TURKU. Then they were shipped on Mafi to LÜBECK to the Seelandkai. Here, the engine blocks were then loaded by two large crane trucks onto corresponding rail wagons of the type Samms 489.

BALTIC STATES: INTERMODAL AND FLEXIBLE TRAILER TRANSPORT

We offer a regular trailer traffic (door-door) between LÜBECK and TALLINN with daily departures from LÜBECK-TRAVEMÜNDE, which allows flexible, safe and fast transports from the Benelux countries, Denmark and Germany to and from Estonia v.v. within 3-4 days. A total of 9 ferry departures per week depart from LÜBECK to the Baltic States. The pre-carriage from the Netherlands, Belgium, the Ruhr area and the postcode area 6+7 is carried out via intermodal transports. The routings to the Baltic States v.v. are of course also feasible for part cargos.

ECL
European Cargo Logistics

*Germany -
Baltic States v.v.*

- *Regular trailer traffic Lübeck - Tallinn v.v.*
- *9 ferry departures a week from Lübeck to the Baltic States*
- *Transports from & to BE/NL/DE/DK*
- *Part cargos are also possible*
- *Flexible departures*

UPCOMING EVENTS

TRANSPORT LOGISTIC MÜNCHEN

Transport Logistic is the leading international trade fair for logistics, mobility, IT and supply chain management. It has been held in MUNICH every two years since 1978.

This year the event will take place from 09 to 12 May and we from European Cargo Logistics GmbH will be there again with our own stand. You will find us in hall B3 at stand 124.

We would especially like to recommend our highlight on Thursday, 11 May. On this day, the "Lübeck Day" takes place and awaits you with numerous special features and extras.

We would be happy to arrange a meeting with you. Simply contact us by e-mail or take a look at our website. We would be pleased to welcome you there.

BREAKBULK EUROPE 2023

BREAKBULK EUROPE 2023

Breakbulk Europe will take place again in ROTTERDAM (The Netherlands) from 06-08 June 2023, bringing together over 4000 companies for networking, building new business and strengthening existing relationships.

We from European Cargo Logistics GmbH will be represented with other companies at a Port of Hamburg joint stand and look forward to every visit to our stand.

ECL-NEWS

SUCCESSFUL PARTICIPATION: GERMAN-SWEDISH PORT EVENT IN TRELLEBORG

On Thursday, 16 February 2023, the German-Swedish Port Event - "Intermodal transport solutions - one answer to climate change" took place again in TRELLEBORG. The event focuses on climate-neutral transport solutions, which are of great importance for all players in the transport and logistics industry. These include sustainable transport by ship and rail, the development of environmentally friendly port infrastructures and the optimisation of transport chains through digital solutions. European Cargo Logistics GmbH also contributed to the success of the event in the form of a presentation by ECL Managing Director *Jörg Ullrich* and numerous interesting discussion rounds.

FROM THE ECL-FAMILY...

NEW COLLEAGUES

We welcome *Udo Küssner* to our headquarters in LÜBECK-TRAVEMÜNDE. He has been part of our forwarding department since November 1st, 2022 and supports his colleague *Martin Wengelinski* in scheduling our combined transports to and from Estonia.

There has also been growth at our branch in ROSTOCK. *Hendrykje Schomacker* joined the team in the handling department on 10 October 2022. We wish both new colleagues a successful journey at European Cargo Logistics GmbH.

CHANGE OF ADDRESS OF THE ROSTOCK BRANCH

The address of our branch in ROSTOCK has changed. The location now has house number 6 instead of 8. The complete new address is now:

European Cargo Logistics GmbH Rostock
Am Skandinavienkai 6
18147 Rostock
